ELECTRONICS FOREIGN TRADE

ELECTRONIC INDUSTRIES ASSOCIATION
2001 PENNSYLVANIA AVENUE, NW • WASHINGTON, DC 20006-1813 • (202) 457-4900

NOTE TO THE READER

This publication contains several tables showing U.S. trade by country and/or country suppliers. These tables list the major U.S. trade partners, either across all product groups or, in the case of the tables showing specific product detail, for the particular product group represented.

Major U.S. trade partners are defined as those countries having the greatest dollar volume of trade with the United States on a current year-to-date basis. As such, the mix of countries represented in any particular table may change from one month to another. This format is designed to provide the reader with data on the most significant U.S. trade partners on a current basis. It is not designed to track U.S. trade with a particular country on a month-to-month basis.

In most of these tables, U.S. trade with the top ten trade partners is shown, with the countries organized in descending order of volume. The table indicating GSP imports includes only the top eight countries, however, due to space considerations.

In the tables that show specific product detail by country, products are listed either by HTS or Schedule B numbers. These numbers are subject to occasional change by the International Trade Commission (ITC). The reader should refer to pages 2-28 for the corresponding product descriptions.

The data contained in this publication are available free or for a nominal fee from the Federal Government.

ELECTRONICS FOREIGN TRADE

OCTOBER 1991

Import products are identified by HTS classifications issued by the United States International Trade Commission. Export products are identified in accordance with the classifications of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported for the United States, which is available from the U.S. Department of Commerce.

Import and export data for defense and space electronics are included in appropriate product categories. Foreign military sales shipped on government bills of lading are not included.

EIA Marketing Services Department Publications

Electronic Market Data Book

This yearbook of the U.S. electronic industries can help you instantly locate facts and figures for virtually every aspect of this rapidly changing industry, including: computers, consumer electronics, electronic components, government electronics, industrial electronics and telecommunications. Another section provides complete international trade, employment and R&D information. Packed with over 100 tables, charts, and graphs, the **Electronic Market Data Book** provides sales and production figures for the most recent year as well as historical data and other information to help pinpoint growing markets and spot trends. For over 35 years, electronics firms, financial institutions, special libraries, consulting firms and research houses have relied on the **Electronic Market Data Book** because it provides the most up-to-date and reliable data available—from the U.S. government, industry experts, private sources and EIA Marketing Services statistial programs. A table of contents from the **Electronic Market Data Book** is available free on request.

Electronics Foreign Trade

Designed for rapid and accurate identification of import and export trends, this monthly statistical report features:

- Monthly and year-to-date import and export figures for over 300 electronic products by unit sales and dollar volume.
- Balance-of-Trade for the U.S. electronics industry by product group.
- Top 10 foreign markets for U.S. electronics products.
- Top 10 foreign suppliers of electronic products to the U.S.
- Top 10 data contain year-to-date statistics for over 300 electronic products by unit sales and dollar volume.
- Bilateral electronics trade data for the top 10 U.S. electronics trade partners.
- Import statistics for articles traded under Generalized System of Preferences (GSP) by product group.

Electronic Market Trends

The monthly authoritative source for economic information and analysis on the U.S. electronics industry, including coverage of shipments, trade, employment, imports, exports, key economic indicators, and producer and consumer price indices. Tables and graphs are supplemented with summary trend interpretation.

Electronic Industries SCANNER

The monthly Marketing Services Research Center newsletter is designed to keep its readership abreast of the Center's activities and new electronic industries information resources. **SCANNER** reports on new market research, provides information on new technologies and industry trends, announces the Research Center's latest inquiries, and offers a special statistical "Economic Data Bank."

FOCUS

The EIA Marketing Services Department newsletter reports on the latest Department statistics, publications, activities and plans, while also informing the readership about related industry developments and up-to-date government information.
